Plattform-Update:

Upcoming Live Classes in June

Dear reader,

for June we have a wide mix from science communication and AI to career tips such as LinkedIn profiles. There’s also a couple of new e-learnings coming out (see page 2!)

Best regards, Robert
(Head of Learning, TwentyOne Skills)

Live classes: Schedule for June

04.06
Top Management Methods to Get Your Work Done
Still many of us belong to the procrastination nation. We will discuss and test the top management methods from the academic praxis.

04.06
Presenting at Scientific Conferences: Tips and Tricks
This session aims to equip you with the little tricks that will help you to confidently deliver engaging presentations and captivate your audience.

04.06
Selfcare for Academics
We know that working in academia can be challenging, but we’re here to help! In this live session, we’ll talk about how you can deal with stress and how small steps in self-care are key to good mental health.

06.06
Beyond the PhD: Navigating New Career Horizons
Graduating soon and looking for career options? Join us for a special presentation on life after the PhD! Explore diverse career options and make informed decisions about your future.
Upcoming E-Learnings:

3 Desk Stretches to Instantly Improve Your Day
and several nuggets on Career and A.I.

LinkedIn for Academics
We will cover essential strategies for creating an impactful LinkedIn profile, including crafting a compelling headline, summarizing your research effectively, and showcasing your achievements.

Better Note-Taking: Introduction to Obsidian
In this session, we will be discussing Obsidian, a tool to help you take better notes throughout your project. Learn what Obsidian is, how to start taking notes, and how to map your notes.

Boost your Creativity
Unlock your creativity with our upcoming live session, “Boost Your Creativity.” This interactive workshop for academics will help you think differently and solve problems.

AI tools for researchers
In this session, we’ll explore a range of AI applications, from data analysis and literature reviews to predictive modeling and automation. Learn how to integrate AI tools into your research workflow to increase efficiency, accuracy, and innovation.
